

20kN Vise Grip for Dynamic Fatigue Testing

Tensile/Compression Rating: 20kN (4500 lbs.)

Jaw Options: 30x30mm for flats, 0-10mm for rounds, also custom

Weight per grip: 1.5kg

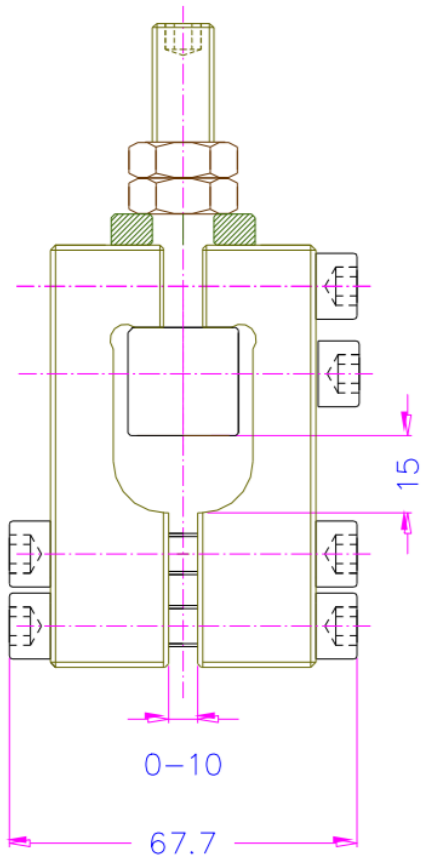

Temperature Range: 0 to 70 Celsius (standard)

Adapter/Coupling: Female 5/8" coupling with 5/16" locking pin

The 20kN dynamic vise grip is used for fatigue testing. It can achieve full reverse uniaxial loading.
