

ASTM F1306 Puncture Fixture

Max Capacity: ~500 lbs.

Weight: 2kg each - steel

Scope of Delivery: Includes base puncture fixture and plunger + 2 locking pins

Coupling: female 5/8", includes 5/16" locking pin

Functional Notes: The sample is inserted into the slot and then the fixture is turned clockwise using the knobs in order to constrain it. Measurements to the plunger radius and puncture hole diameter are made according to ASTM F1306.

Schematic (mm)
