

50kN Rope Grip

Tensile Rating: 50kN or about 11,000 lbs.

Max Sample Diameter: 20mm

Jaw Options: Serrated, Diamond

Adapter Couping: 1.25" female with 0.5" locking pin

Weight: 13.9kg per grip

These rope grips are ideal for testing cord, yarn, wire, ribbons, and ropes. The amount of wraps around the drum is largely determined by the coefficient of friction of the sample.
