

100kN Bend Fixture - Steel

Compression Rating: 100kN standard or to 250kN, depending on adapter size

Max Sample Span: 250mm or 330mm when turned

Standard Mandrel Sizes: 10mm, 20mm, 30mm, all included – custom available.

Adapter Couping: 40mm female clevis with 16mm locking pin

This standard bend fixture can be customized in many ways. The length of the fixture can be extended for about \$200 per extra 100mm. The support spans are reversible and can also be changed to include articulating supports or extra wide supports. Check out our custom design pictures on our website.
