

ASTM C297 Flatwise Tensile Strength Fixture

Tensile Rating: 10kN or 2,250 lbs.

Block Dimensions: 2x2" square – custom block inserts available

Adapter Couping: 5/8" with a 5/16" Locking Pin

The ASTM C297 fixture has removeable blocks that are used to prepare the samples. Many users of this fixture will use more than one pair of blocks so that multiple samples can be prepare ahead of time. A universal swivel joint can be used for increased nutation.
